

OUR MANUFACTURER:

NHK Laboratories, Inc. was created in 1987. Our vision has always been to establish a quality conscious organization dedicated to producing pure and potent dietary supplements. Today we are one of the most credentialed contract manufacturers on the West Coast of the USA.

NHK Laboratories, Inc. is a private label contract manufacturer of dietary supplements to companies that market and sell dietary supplements to wholesalers, distributors, retailers and end-user consumers. At NHK, we take pride in making your experience with us as comfortable as possible. We are your partners in every stage of the process: from turnkey single ingredient formulas to novel multi-ingredient cutting edge products.

Looking to the future, NHK is continually up to the task of meeting the demands of contract manufacturing. NHK’s facilities are equipped with the latest in technology including Bosch 2000 capsule fillers, Bosch 701 capsule fillers and the Korsch XL400 tablet press. Specializing in the manufacture of tablets, capsules and powder drink mixes; NHK’s supplements are sold worldwide. With two state-of-the-arts FDA cGMP, NSF/NPA GMP, ISO 9001:2008, CCOF and QAI Organic, and ISNA Halal certified locations, NHK is exceptionally equipped to deliver high quality products to meet your turnkey manufacturing demands. Whether it is a brand comparable or a custom tailored supplement, NHK brings your ideas to life.

With offices in Southern California, U.S.A and Dubai, U.A.E. NHK Laboratories Inc. serves clients around the world. As a contract manufacturer, we are in a remarkable position to work globally with you and meet your needs. Our customers are located in North America, South America, Europe, Asia and Africa. Additionally, our private-label dietary supplements are sold in independent and mass-market specialty retailers, discount mass-market retailers, multi-level marketers, wholesalers, and pharmacies globally. Our primary goal is to produce high quality dietary supplements that are pure and safe. Our laboratory capabilities are integral to our short- and long-term success by allowing vertical integration of its operations. In fact, well before the FDA’s final dietary supplement on GMPs, NHK Laboratories, Inc. made a conscious effort to invest in laboratory infrastructure and regulatory compliance.

The logo for ALGOLIFE is prominently displayed at the top. The word 'ALGOLIFE' is in a large, bold, red sans-serif font. A green leaf-like graphic element curves around the top right of the letters. Below the logo, the tagline 'The Science of Nutrition & Health' is written in a smaller, green, serif font.A row of eleven white plastic bottles of ALGOLIFE supplements is arranged on a reflective surface. Each bottle has a different colored label: Cardio (orange), Sexual Energy (pink), Vitality (orange), Anti-Age (green), Joint Support (teal), Nervous System (purple), Eklonia Extract (blue), Natural Defence (light blue), Glucose Metabolism (light blue), Vision 1&2 (light blue), and Vision 1&2 (light blue). The bottles are of varying sizes and are set against a background of soft, out-of-focus green and yellow light.

Ecklonia based food supplement.

**ALGOLIFE**  
The Science of Nutrition & Health

**ECKLONIA  
EXTRACT**

60 capsules Net weight: 22.2g

**Ingredients:**  
Ecklonia thallus extract (Ecklonia bicyclis),  
plant based coating: hydroxypropyl methylcellulose

**Nutritional information:**

	Per day (2 gel capsules)
Ecklonia thallus extract	600.0 mg

RDA\*: Recommended Daily Allowance

AlgoLife Ecklonia Extract

EBE are standardized natural complexes of biologically active polyphenols called phlorotannins. These are categorized by a unique phenolic structure and low molecular weight found only in a few specific species of brown algae. This includes Ecklonia Bicyclis.

EBE tannins have up to eight interconnected rings, which confer them their free-radical scavenging ability. Phlorotannins found E. Bicyclis include phloroglucinol, phloroglucinol tetramer, triphlorethol-A, eckol, bieckol, dieckol and phlorofucoekol.

All studies indicate that there is no toxicity at any level. Numerous clinical tests have been done and no adverse effects have been found at any human dosage level of 1-10 mg/kg.

This product is safe as required by the regulation in force.

Ingredients :

Ecklonia thallus extract (Ecklonia bicyclis), plant based coating: hydroxypropyl methylcellulose

Joint  
Support

**Recommendations for use:**  
Take 4 gel capsules a day with a large glass of water.  
Do not exceed the recommended daily dose.

**Precautions for use:**  
Food supplements must be used as part of a healthy  
lifestyle and must not be used as a substitute for a varied  
and balanced diet. Keep out of the reach of young children.

Store in a dry, cool place. Protect from light.

AlgoLife Joint Support

Our formula is a blend of zinc, magnesium, curcuma, collagen, elastin, glycosaminoglycans and ecklonia (containing polyphenols). Zinc and magnesium contribute to the maintenance of normal bones and bone formation (bone structure, bone mineralization, bone density) and curcuma is good to assist mobility and help to support muscle and joint structures.

These specific nutrients are scientifically processed for maximum absorption and utilization by the body.

Ingredients :

Collagen, glycosaminoglycan and elastin-dosed eggshell extract, plant based coating: hydroxypropyl methylcellulose, turmeric dosed turmeric root extract (Curcuma longa), bulking agent: microcrystalline cellulose, magnesium bisglycinate, polyphenol dosed ecklonia thallus extract (Ecklonia bicyclis), anti-caking agents: magnesium stearate, silicon dioxide, zinc aspartate

Nervous System

**Recommendations for use:**  
Take 3 gel capsules a day with a large glass of water.  
Do not exceed the recommended daily dose.

**Precautions for use:**  
Food supplements must be used as part of a healthy lifestyle and must not be used as a substitute for a varied and balanced diet.

Keep out of the reach of young children.  
Store in a dry, cool place. Protect from light.

Algolife Nervous System

Magnesium is essential to making ATP in the mitochondria of every cell. ATP is responsible for 99% of all the energy requirements of the human body yet without proper levels of magnesium it cannot be made. Magnesium is required for relaxation and with an intake, muscles can properly relax. Magnesium is also one of the main electrolytes used for proper energy signaling and for maintaining cellular voltage. Magnesium contributes to normal function of nervous system and psychological functions, as mental performance, concentration, learning, memory and reasoning.

Rhodiola helps organism to adapt for emotional stress, physical effort and has beneficial effect in fatigue. It also helps to stimulate perception and improve one’s over all state of mind.

Ingredients :

Magnesium bisglycinate, plant based coating: hydroxypropyl methylcellulose, grape seed extract (Vitis vinifera), polyphenol dosed ecklonia thallus extract (Ecklonia bicyclis), bulking agent: microcrystalline cellulose, R-lipoic acid, rhodiola root extract (Rhodiola rosea), anti-caking agents: magnesium stearate, silicon dioxide

AlgoLife Glucose Metabolism

AlgoLife Glucose Metabolism looks at all the factors involved and provides a good approach. The formula contains chromium and fenugreek which contributes to carbohydrate metabolism regulation and to the maintenance of normal blood glucose levels.

The fenugreek contributes to insulin metabolism regulation.

AlgoLife Glucose Metabolism seeks to address the most dangerous issue of faulty glucose control which is radical post meal spikes in glucose.

**Ingredients :**  
Plant based coating: hydroxypropyl methylcellulose, caffeine dosed coffee bean extract (Coffea arabica), polyphenol dosed ecklonia thallus extract (Ecklonia bicyclis), R-lipoic acid, fenugreek seed extract (Trigonella foenumgraecum), bulking agent: microcrystalline cellulose, green tea leaf extract (Camellia sinensis), anti-caking agents: magnesium stearate, silicon dioxide, chromium picolinate.

Vision 1 & 2

**Recommendations for use:**  
Take 2 hard gel capsules and 1 capsule per day with a large glass of water.  
Do not exceed the recommended daily dose.

**Precautions for use:**  
Food supplements must be used as part of a healthy lifestyle and must not be used as a substitute for a varied and balanced diet. Keep out of the reach of young children. Store in a dry, cool place. Protect from light. Contact a doctor if you are taking anticoagulants. Not recommended in pregnant or breast-feeding women.

Net weight: 80.5g

**Ingredients (for the capsules):**  
Eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) dosed squid oil, coating: gelatin, moistening agent: glycerin, lemon flavour, anti-oxidant: tocopherol mixture

Nutritional Information (for the capsules):	
	Per day (1 capsule)
Squid oil	1018.0 mg
Of which EPA	140.0 mg
Of which DHA	380.0 mg

AlgoLife Vision 1&2

Age related deterioration of the eyes is fast becoming a modern day discomfort. The physical eye is especially vulnerable to oxidative stress. Formulas must be based on a variety of antioxidants such as curcuma and ginkgo. AlgoLife Vision 1 & 2 is an advanced nutritional formula formulated with blackcurrant, Haematococcus pluvialis (which contains astaxanthin), turmeric, marigold (which contains lutein), curcuma, omega 3 fatty acids (EPA and DHA) and ginkgo biloba.

Omega 3 fatty acids contribute to the maintenance of normal vision, to brain, eye and nerve development and function, EPA and DHA are also a support of human neurodevelopment, act as a building block for lipids in the retina's photoreceptors, and help to maintain membranes cell structure. The addition of ginkgo biloba permits to support healthy eyesight and the maintenance of healthy eyes by promoting the peripheral circulation, which is especially useful for the eyes and the ears and contributes to good hearing and vision. Flavonoids in plants such as ginkgo biloba, are antioxidants that promote circulation and are powerful free radical scavengers. Combined with curcuma for raising beneficial glutathione, this provides substantial protection to the eye lens.

**Ingredients :**  
Plant based coating: hydroxypropyl methylcellulose, flavonol glycoside dosed ginkgo leaf extract (Ginkgo biloba), blackcurrant fruit extract (Ribes nigrum), astaxanthin dosed Haematococcus pluvialis thallus extract, curcumin dosed turmeric root extract (Curcuma longa), bulking agent: microcrystalline cellulose, polyphenol dosed ecklonia thallus extract (Ecklonia bicyclis), anti-caking agents: magnesium stearate, silicon dioxide; lutein dosed Indian rose flower extract (Tagetes erecta)

AlgoLife Vitality

In today’s world, many of us are plagued by excessive, stressful, and “on the go” lifestyles. The feeling of fatigue that comes from just being worn down from day-to-day activities has affected many around the world. Not surprisingly, in an ever-growing competitive world, one can sometimes feel isolated and disconnected from our true nature.

**AlgoLife Vitality** contains herbal ingredients that have been used for thousands of years. These ingredients help the body cope with many of today’s multi-tasked working environments. Ingredients such as vitamin C and Korean Ginseng contribute to maintain optimum stamina which can lead to reduction of fatigue, renewed energy and vitality, physical and “state-of-mind” well-being.

**AlgoLife Vitality** is a formula that anyone can add to their existing program to maintain optimal health.

**Ingredients :**  
Cordyceps mycelium extract (Cordyceps sinensis), plant based coating: hydroxypropyl methylcellulose, bulking agent: microcrystalline cellulose, polyphenol dosed ecklonia thallus extract (Ecklonia bicyclis), ascorbic acid (vitamin C), ginseng root extract (Panax ginseng), polyphenol dosed pomegranate fruit extract (Punica granatum), anti-caking agents: magnesium stearate, silicon dioxide

Cardio

**Ingredients:**  
 Bergamot fruit extract (Citrus bergamia), plant based coating: hydroxypropyl methyl-cellulose, monacolin K dosed red yeast rice extract (Monacus purpureus), amla fruit extract (Phyllanthus emblica), grape seed extract (Vitis vinifera), bulking agent: microcrystalline cellulose, polyphenol dosed ecklonia thallus extract (Eisenia bicyclis), bitter orange fruit extract (Citrus aurantium), olive fruit extract (Olea eupaea) (supporting agent: maltodextrin, anti-caking agent: magnesium stearate, silicon dioxide, Menaquinone-7 (Vitamin K2)

**Other Ingredients May Contain:** Hydroxypropyl Methylcellulose (Vegetable Capsule) 354mg, Microcrystalline Cellulose 105mg, Magnesium Stearate 30 mg, and Silicon Dioxide 30mg.

**Recommendations for use:** Take 3 gel capsules a day with a large glass of water. Do not exceed the recommended daily dose.

**Precautions for use:**  
 Food supplements must be used as part of a healthy lifestyle and must not be used as a substitute for a varied and balanced diet. Store this product in a cool dry place below 30°C (86°F).
